

### Maker of Knives for Fighters Needs Leather Workers' Help

Dulled files become razor-edged knives with six-inch blades under the skilled hands of A. Frank Pauliny of 1423 Acacia st., and the finished product goes exclusively to armed forces on the fighting fronts. Pauliny, a National Supply machinist for the last 15 years, has encountered a bottleneck to his knife production and today appealed for help.

"I've got to have leather sheaths for the knives I'm giving to our fighting men and I cannot get enough leather and I need help in making the case," he told The Herald. "The knives are no good to the boys at the front unless they have sheaths that can be attached to belts. I want to go on making knives but unless I get leather and the assistance of leather workers I'll have to curtail my production."

Pauliny, who says he would like to be known as a "fighter on the home front," makes handles for his blades out of aluminum from old engine parts. A native of New York City, he has been a resident of Torrance for the past 16 years and is past 60 years old.

His home shop is equipped with a forge and the knives he produces meet all military specifications. He is the second Torrance craftsman to aid the war effort by making knives for fighters—the other is Loren Dick Bidwell of 1308 Date st.

### Retail Ceilings Set for Eggs

New retail egg price ceilings to become effective March 11 in Los Angeles were announced this week by L. M. Kearns, chief of the Southern California Office of Price Administration, food price section.

The schedule will prevent egg prices from rising above 59 cents a dozen for top quality carton eggs until June 1.

The retail figures are based on a new wholesale schedule which will be in effect from Saturday until May 31. Competition and a plentiful supply of eggs have combined to slash retail prices substantially below the new tops set by the OPA.

Tradersmen are confident prices will not soar to the ceiling levels. The retail schedule establishes four prices for each size of eggs sold at stores. The prices vary in accordance with the type and size of store.

The big, genial boy from Texas and Oklahoma has completed 24 Western pictures for Universal and is scheduled to do a second series starting next month.

## VISIT YOUR SAFEWAY STORE'S POINT RATION SECTION

Get FULL VALUE for Your Ration Coupons  
NOTE SAFEWAY'S LARGE VARIETY & LOW PRICES!

Uncle Sam's "Book of the Month" is War Ration Book Number Two! Millions of copies of this publication were issued last week to men, women and children of America. To help you make the best use of your copy, Safeway has moved all "point rationed" foods into a single section of each store. Here you may make your selections as leisurely as you wish, comparing values, in order to spend your "points" in the most profitable manner for your family.

### Point Ration Shopping Hints

- (1) Point values have nothing to do with dollars-and-cents prices. You have to give the money price and the point stamp price for every purchase in a rationed group.
- (2) You have freedom of choice in using your points to buy any rationed item, provided it is available.
- (3) If you buy foods with a low point value you will be able to buy more of the articles in the same rationed group.
- (4) Point values of all rationed foods are set by the Government and not by the storekeeper or by the manufacturer.
- (5) You are not permitted to buy point rationed items, at any store, without giving point stamps... even on a charge account.
- (6) High point stamps should be used when buying a number of rationed items at one time. Conserve your low point stamps as storekeepers cannot give you ration stamps in change.
- (7) Loose stamps are not valid. Stamps must be torn out of your ration book at the time of purchase and in the presence of your grocer.

### Now When You Go Shopping...

REMEMBER to:

- (1) Allow plenty of time for your shopping under point rationing... it takes longer. Best time to shop is early in the week and early in the day.
- (2) Be sure and take your War Ration Book No. 2 with you. No stamps... no rationed items.
- (3) Take your point value chart along with you, too, for convenience. While our store will have price and point values clearly marked on the shelves and on the merchandise, your list will serve as a double check and save lots of extra steps and confusion.
